

Week 36

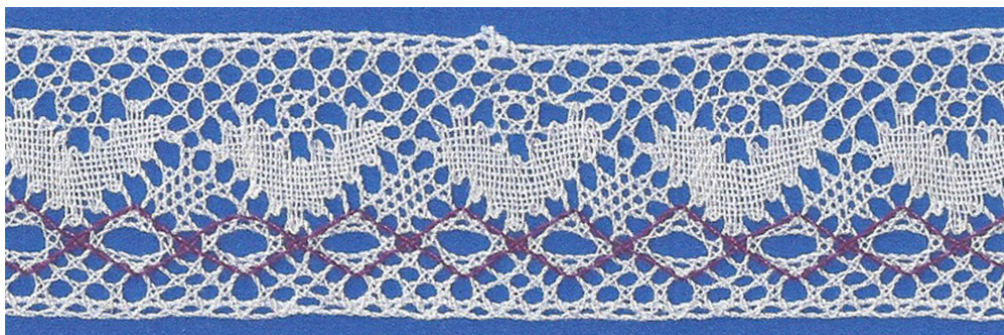

This Pettersson insertion contains a gimp, Point du Mariage and a Rose ground.

Originally this lace is made on a pricking of only pinholes.

On this pricking more than one lace can be made. The laceworker places the pins only there where the pattern requires it. This will be only at the edges and along the motifs. No pins in the ground. This means in this case only pins on the black dots, no pins on the grey dots in the ground.

This insertion is designed for us by Bep Hoogerbrugge.

You need 20 pairs of bobbins with linen 50/2 or 60/2 or similar

The heart is made in cloth stitch according the diagram underneath.
The long outlines of the heart are partly connected to a diamond in half stitch.
